Sea Alarm Newsletter: Spring 2015

The EUROWA project launch, 2015 Interspill conference, and more to start a busy year.

EUROWA project: building Tier 3 oiled wildlife response capacity in Europe

The European Module for Oiled Wildlife Emergency Response Assistance (EUROWA) project, introduced late last year, got off to a strong start with a weeklong meeting hosted by the RSPCA, a project partner, at their Mallydams Wood Wildlife Centre. [Read more...](#)

Binding EU Offshore Safety Directive wildlife requirements discussed at Interspill conference

The 2015 Interspill conference provided Sea Alarm with the opportunity to present an analysis of the European Union's Offshore Safety Directive's oiled wildlife requirements to members of the oil and gas industry and spill response

Sign up for Sea Alarm's oiled wildlife planning course in April

Sea Alarm is providing its oiled wildlife planning course, free of charge, to European authorities who have responsibility for this issue in their country. Registration is still open for the course, which will be held on 16-17 April at the Commission's Emergency Response Coordination Centre (ERCC) in Brussels..

Oiled wildlife response cooperation in the Netherlands progressing well

In March, the annual meeting between key wildlife response organisations and Rijkswaterstaat took place, bringing together responders and authorities who cooperate on implementing and updating the national plan for response to oiled birds (Samenwerkingsregeling Besmeurde Vogels or SBV) [Read more....](#)
